EDUCATION

Master of Computer Applications (MCA)

August 2023 - May 2025

"CGPA- 6.7"

B. S. Abdur Rahman Crescent Institute Of Science And Technology.

Bachelor of Computer Applications (BCA)

August 2020 - May 2023

"CGPA- 7.1"

Vels Institute of Science, Technology & Advanced Studies.

PROJECTS

Online turf booking — Using HTML, CSS, and JavaScript

This project focuses on developing an **Online Turf Booking System** using **HTML, CSS, and JavaScript**. It provides users with an easy-to-use interface to check turf availability, book slots, and make reservations. The system ensures a smooth booking experience with a responsive design. JavaScript handles real-time validations and interactive elements. CSS enhances the user experience with an attractive layout. This project simplifies turf management and improves accessibility for sports enthusiasts.

Gender and Age Prediction —Using Machine Learning in Python (Jupyter Notebook)

This project focuses on **Gender and Age Prediction** using **Machine Learning** in **Python (Jupyter Notebook)**. It analyzes facial features from images to predict a person's gender and age. Machine learning models, such as CNN, are trained on labeled datasets for accurate predictions. OpenCV and deep learning libraries help in face detection and preprocessing. The system can be used in security, marketing, and personalization applications.

SKILLS

Python programming

SQL programming

web development

Additionals

I actively practice coding on platforms like HackerRank and LeetCode to improve problem-solving skills.

LANGUAGES

English, Tamil, Hindi

HOBBIES

Traveling, Playing Football
